

LET'S SEE
WHAT'S POSSIBLE.

Your treatment today provides life-changing eye care for someone in need.

As a Global Partner, your surgeon sponsors sight-restoring surgeries in low- and middle-income countries in South Asia and sub-Saharan Africa.

Ninety-percent of people suffering from vision loss live in countries where solutions aren't accessible.

Before surgery, my vision deteriorated over a year and I could not see at all. My sudden inability to navigate my environment was troubling. I have known farming all my life, and I was not ready for the idleness. As I was completely reliant on my grandchildren due to blindness, I eagerly anticipate returning to my beloved fields and family duties. God bless the good doctors who have cared for us and restored our sight.

Andrews Gadzie, 80, poses for a picture as his eye patch is removed on the second day of the 5-day Cure Blindness Project cataract surgery outreach at the Cape Coast Teaching Hospital (CCTH) in Cape Coast, Ghana.

FREQUENTLY ASKED QUESTIONS

What is the Global Partners program?

The Global Partners Program is a renewable, annual program where ophthalmology practices donate a certain amount of money each year to fund sight-restoring surgeries in sub-Saharan Africa and South Asia supported by Cure Blindness Project. They believe everyone should have access to high-quality eye care regardless of where they live. Patients are invited to participate by donating through their doctor's GPP fundraising page. Together, let's see what's possible.

What is Cure Blindness Project?

Founded over 25 years ago, Cure Blindness Project is a non-profit focused on eradicating avoidable blindness with an emphasis on reaching patients considered "unreachable." Cure Blindness Project targets remote, under-resourced areas where the burden of blindness is extremely high, and has improved eye care in more than 25 countries throughout South Asia and sub-Saharan Africa.

How common is cataract blindness?

Globally, 43 million people are blind. Nearly half of these blind are from untreated cataracts. **Without care, blindness dramatically affects individuals, their families and their communities.** The restoration of sight helps break the cycle of poverty and inequality. 55% of the world's blind are women – and 90% of women who are blind live in poverty.

How can I help?

You can make a difference with a gift to Cure Blindness Project. Together, we can give the gift of sight. Visit www.cureblindness.org/globalpartners to find your surgeon's page and donate.
